12 Million

Americans Suffer from Food Allergies

As of 2000

3 Million

Americans Suffer from Latex Allergies

Reduce liability, implement a highly effective allergy safety protocol and show your patrons that you care about their safety by certifying your establishment(s) as Food Allergy Friendly and Latex Safe.

According to the Conference for Food Protection, food allergy reactions account for 30,000 emergency room visits, 2,000 hospitalizations, and 150 deaths each year. Are your employees prepared to serve patrons with food allergies? Have your entire staff trained on-site, not just managers, and learn how to implement highly effective protocol that will ensure that allergy orders are handled so that reactions are prevented and liability is greatly reduced. Easy-to-implement protocol and techniques will eliminate the chances of allergic reactions in your establishment.

The Food & Drug Administration (FDA), the Center for Disease Control (CDC), the Occupational Safety & Health Administration (OSHA), and the National Institute for Occupational Safety and Health (NIOSH) and have all issued warnings about the health hazards associated with using gloves containing Natural Latex Rubber. Reduce liability with your employees and patrons by learning the difference between each glove type and how to make your establishment(s) Latex Safe for the millions Latex allergy sufferers in the US.
